Hal Lindes^o

Hal Lindes was a member of one of the world's most commercially successful bands, Dire Straits, with worldwide album sales of over 120 million, winning numerous music awards during their career, including four Grammy Awards, three Brit Awards and winning Best British Group twice.

It was while playing on Mark Knopfler's Local Hero film score that Hal discovered his passion for composing music for film.

Hal has since created over 150 scores for Film and Television, winning many awards including a ROYAL TELEVISION SOCIETY AWARD for the BAFTA award nominated film RECKLESS and a TRIC award for Best TV Theme Music - THIEF TAKERS.

Hal is best known for his compellingly honest, richly evocative and emotionally unique guitar scores for films like 'THE BOYS ARE BACK'.

2017 starts with Hal scoring the US independent film "LOST FARE", UK film "LA LA MEANS I LOVE YOU" and a multi spot Festina watch campaign starring Gerard Butler.

Last year Hal scored Season 2 of BBC 1's "In The Club", and Season 3 of BBC 1's hugely successful drama series, "THE SYNDICATE".

SCOTT HICKS (director) - *"Hal Lindes' music is beautifully evocative, without artificially telling the audience when and how to feel, but enabling the audience to find the emotions for themselves."*

DAVID RICHARDS (director) - *"Hal's music, whether written for a film that's sad, funny or anything in between, communicates emotionally, in a clear and direct way. His music feels uncomplicated, but in actual fact it's quite complex, and like with most great art, it engages the emotions, makes you 'feel', and stays with you."*

JANE TRANTER (executive vice-president BBC Worldwide) - *"Hal Lindes is an amazing and distinctive composer."*

VARIETY

"Hal Lindes' score adds emotional ballast and nicely complements the film."

AWARDS DAILY'S OSCAR COUNTDOWN

"The score by Hal Lindes is hauntingly beautiful."

WHISPERING GUMS

"The music, by Hal Lindes, is understated with just a bit of an edge, and effectively underscores the emotions without over sentimentalizing them."

MOVIEHOLE

"The rich and gorgeous score of piano and guitar music by Hal Lindes pulls the viewer immediately into the pitch-perfect tone of the film, which is compassionate without being cloying or overly sentimental."
