James Brett (ARAM)^o
www.jamesseymourbrett.com

James Seymour Brett has come through in the last few years as a versatile, international talent, scoring projects in all genres and media.

His style ranges from the large, upscale orchestral grandeur of *BATMAN LIVE*, *WALKING WITH DINOSAURS & PLANET 51*, to smaller, more intimate works such as *L'HISTOIRE DE NOS PETITES MORTS*, *OUTPOST*, and *THE LIFE AND DEATH OF PETER SELLERS* to collaborative orchestral projects with artists such as *METALLICA* and *POLLY SCATTERGOOD*. In addition to film projects James has enjoyed success on Network TV with two seasons of the cult drama *HEX* for Sky 1 and *CRUSOE* for NBC. Also in his early career he was fortunate to have worked with the late Michael Kamen on projects such as *BAND OF BROTHERS* and *FROM THE EARTH TO THE MOON*.

In May last year, James once again collaborated with Roland Emmerich on his major film *WHITE HOUSE DOWN*. Previous Emmerich projects include *2012*, *10,000 BC* and *ANONYMOUS*. James spent the summer working on *ONE CHANCE (THE WEINSTEIN COMPANY)* working closely Paul Potts and James Corden producing their vocal performances and arranging the material. James also composed the score to Stephen Frears film *LAY THE FAVOURITE*, which demanded a quirky, Americana-style score covering rock, blues & folk genres. The movie stars Rebecca Hall, Bruce Willis and Catherine Zeta Jones.

James is currently working on Ron Howard's film *Heart Of The Sea*.

2012 was a busy year for James as he masterminded and conducted the *QUEEN'S DIAMOND JUBILEE CELEBRATIONS* with the BBC, working alongside artists such as Elton John, Paul McCartney, Annie Lennox and Stevie Wonder, whilst also overseeing the release of his specially commissioned *LONDON OLYMPICS 2012* album.

After graduating from The Royal Academy of Music in 1997 James was immediately hired by the acclaimed composer *MICHAEL KAMEN*. James' further contribution to film scores includes writing collaborations with Kamen on features such as *THE EVENT HORIZON*, *WHAT DREAMS MAY COME*, *THE IRON GIANT*, *FREQUENCY*, *X-MEN THE MOVIE*, and the epic mini series, *BAND OF BROTHERS* produced by Steven Spielberg. In this period James also co-produced and provided additional score on Paramount's *AGAINST THE ROPES*.

In 1999 James helped mastermind the ambitious and groundbreaking concert that saw *METALLICA* pair up with *THE SAN FRANCISCO SYMPHONY ORCHESTRA* as assistant Musical Director. The album has since sold over 5 million copies worldwide. In 2002 James went on to plan and execute, again as assistant Musical Director and in close partnership with the BBC, *PARTY AT THE PALACE* (part of the Queen's Golden Jubilee Celebrations). This unprecedented and star-studded event was broadcast live to a multi-million audience worldwide with a gold CD in less than a week. James co-ordinated and arranged many of the collaborations both with traditional rock pairings and new orchestral interpretations.
